Report No. SAT-00389 Friday September 22, 2006

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20060919-00103 E S2392

Intelsat North America LLC

Date Filed: 09/19/2006 14:07:44:82000

Modification

Intelsat North America LLC (Intelsat) has filed a modification application to relocate its INTELSAT 601 satellite from its current location at 64.25 E.L. to 63.65 E.L., and requests authority to operate the INTELSAT 601 satellite in the following C-band (5850-6425 MHz and 3625-4200 MHz), and Ku-band (14.0-14.5 GHz, 10.95-11.2 GHz, 11.45-11.7 GHz) frequencies at the 63.65° E.L. orbital location. This move will enable Intelsat to eliminate intrasystem interference being experienced by a customer on the INTELSAT 906 satellite currently operating at 64.15 E.L., collocated with the INTELSAT 601 satellite.

Intelsat also requests a waiver of Section 25.114(d)(4) of the Commission's rules. Additionally, Intelsat requests that the Part 25 waivers originally granted to the INTELSAT 601 spacecraft, specifically the waivers of Sections 25.140(b)(2), 25.202(g), 25.210(a)(1), 25.210(a)(3), 25.210(c), 25.210(i), and 25.211(a) of the Commission's rules[1] continue to apply at the 63.65° E.L. orbital location.

[1] See Application of Intelsat LLC, For Authority to Operate, and to Further Construct, Launch, and Operate C-band and Ku-band Satellites that Form a Global Communications System in Geostationary Orbit, Memorandum Opinion, Order and Authorization, 15 FCC Rcd 15460 (2000) Appendix C, 15 FCC Rcd 25234 (2000).
